WELCOME

...TO THE NEIGHBORHOOD RESOURCE DIRECTORY!

This Directory has been compiled by the Chicago Department of Family and Support Services and Chapin Hall to assist Chicago families in connecting to available resources in their communities. Assembled using public information, this Directory contains listings of services available to Chicago families in the areas of health care, nutrition, social services, education, senior services, and employment organized geographically by Chicago's 77 Community Areas. The providers listed in this Directory are a combination of city- and state-funded providers as well as private schools and providers.

Information is represented as clearly and as accurately as possible based on the time of data collection.

Before visiting an agency, you should verify the service area of the agency, its days and hours of operation, and any identification requirements.

Finally, inclusion of the service provider in this directory does not constitute an endorsement of that provider by the Chicago Department of Family and Support Services.

There are many services available citywide in Chicago that may not be captured in single community profiles. The following is a list of resources, including hotlines and internet listings, which are available to Chicago residents throughout the city.
